JOURNAL of ANALYTICAL and APPLIED PYROLYSIS

Contents

Thermogravimetric behavior of black liquors and their organic constituents
R. Alén (Jyväskylä, Finland), S. Rytkönen and P. McKeough (Espoo, Finland) 1
Analysis of aromatic hydrocarbons in pyrolytic oil derived from biomass
P.T. Williams and P.A. Horne (Leeds, UK) 15
The influence of catalyst type on the composition of upgraded biomass pyrolysis oils
P.T. Williams and P.A. Horne (Leeds, UK) 39
Kinetic analysis of in situ combustion processes with thermogravimetric and differential thermogravimetric analysis and reaction tube experiments
M.V. Kok and E. Okandan (Ankara, Turkey) 63
Pyrolysis derivatization of humic substances. 2. Pyrolysis of soil humic acids in the presence of tetramethylammonium hydroxide
F. Martín, J.C. del Río, F.J. González-Vila and T. Verdejo (Sevilla, Spain) 75
A comparative study of the effects of fire retardants on the pyrolysis of cellulose and *Pinus halepensis* pine-needles
A.A. Pappa, N.E. Tzamtzis, M.K. Statheropoulos, S.E. Liodakis, and G.K. Parissakis (Athens, Greece) 85
Kinetic study of the flash pyrolysis of municipal solid waste in a fluidized bed reactor at high temperature
A.N. García, R. Font and A. Marcilla (Alicante, Spain) 101
Molecular rearrangements of sulfur compounds. Thermolysis of ketoxime arenesulfonates
A.A. Atalla (Assiut, Egypt) 123
Pyrolysis and incineration of cationic and anionic ion-exchange resins — Identification of volatile degradation compounds
M.A. Dubois, J.F. Dozol (St Paul lès Durance, France), C. Nicotra, J. Serose (Grenoble, France) and C. Massiani (Marseille, France) 129
Analysis and toxicity of combustion gases. 2. Characterisation of combustion products from halogen-free flame-retardant duroplastic polymers for electronics
A. Hauk, M. Sklorz, G. Bergmann and O. Hutzinger (Bayreuth, Germany) 141
Physicochemical investigation of the decomposition products of ammonium metal carboxylates: ammonium ferric oxalate hydrate
G.A.M. Hussein, H.M. Ismail and K.M.E. Attyia (El-Minia, Egypt) 157
Study of the bimolecular pyrolysis of acetic acid by the Austin Model 1 semi-empirical method
J.J. Quirante (Málaga, Spain) 169
Chemical examination of some petroleum source rocks by laser pyrolysis–mass spectrometry and flash pyrolysis–gas chromatography/mass spectrometry
P.F. Greenwood, N. Sherwood (North Ryde, NSW, Australia) and G.D. Willett (Kensington, NSW, Australia) 177
Pyrolysis field ionization mass spectrometry of polyolefins
R.P. Lattimer (Brecksville, OH, USA) 203
Rapid quantification of biomarkers during kerogen microscale pyrolysis
A.W. Scott and G.D. Abbott (Newcastle-upon-Tyne, UK) 227

Analytical pyrolysis of alcohol bisulfite lignin
K. Kuroda (Ibaraki, Japan), S.-P. Mun, (Chonbuk, South Korea) and K. Sakai (Fukuoka, Japan) 239

Corrigendum 249

Nomenclature and terminology for analytical pyrolysis 251
